

Join the π - rates (Pirates) MathCounts Team!

MathCounts is a nationwide math competition for students in grades 6-8. We are looking for students who love math and are looking for a challenge. Our school has done well in the past and we are looking to keep up the success!

This year we are also looking at competing in a similar competition that takes place in November. This will be a great preview of the competition in February.

Dates: Every Wednesday starting September 25th, 2019

Time: 2:15-3:30 pm

Location: Ms. Skulski's Room D204

We hope you will join the team and give Esperanza another winning year!

Ms. Mary Skulski & Mrs. Donna Waldron

Please sign and return to your Math Teacher, Ms. Skulski or Mrs. Waldron.

Name of Student
